Saku Advanced Care Center opened on March 1st 2014, after a transfer of facilities from Saku Central Hospital. Saku Advanced Care Center is the base hospital for the east area of Nagano prefecture with many specialized medical services and advanced acute care. By collaborating with local medical institutions and medical doctors, we aim to offer comprehensive health care. Saku Advanced Care Center is characterized by the following 5 Centers:

- ①Medical Emergency Center, which provides 24-hour assistance across advanced emergency medical care.
- ②Stroke and Cardiovascular Center, which collaborates with several medical departments.
- ③Cancer Medical Care Center, which is the main hospital for local cancer care.
- ④Perinatal Mother and Child Medical Care Center, which accepts women with high-risk pregnancies and children on a round-the-clock basis.
- ⑤Advanced Diagnosis Center, which offers definite diagnoses through its advanced diagnostic imaging equipment, PET, high magnetic field MRI, etc.

We strive to practice medicine according to local needs.

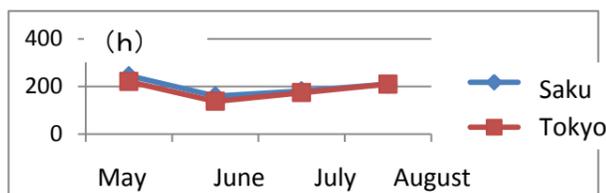

Asama General Hospital is a 323-bed traditional municipal hospital and has been open for over half a century. Its mission is the practice of patient-focused, good quality medical care. The hospital offers comprehensive and excellent medical care. In addition to caring for regular patients, the hospital has emphasized care for diabetics since its opening. The hospital possesses all necessary equipment for x-rays, CT, and MRI exams within its radiology department. For urgent examinations such as blood and urine tests, it is possible to receive results in one hour. Concerning head injury and cerebral vascular disease, we offer not only craniotomy procedures but also endovascular treatments using catheters at the neurosurgical department. And we also offer treatment of extremity and spinal trauma; arthroscopic surgery of the shoulder joint, elbow joint, wrist joint, knee joint, and ankle joint; and spinal endoscopic surgery at the orthopedic surgery unit. We are prepared for any sudden illness or external injuries an overseas visitor might have during their stay here.

The climate of Saku City makes it an ideal place for training!!
